First Basketball Game

Jesse Freeman

Are you guys looking forward to the first basketball game? If not, then get a life. You better come; games are after school. The Lions are going against the Tonto Basin Wranglers. Our strategy is to nail our man-to-man defense and our out of bounds plays. If you don't come, just remember- I will find you! Or just come to next game. By now, you are probably wondering when the first game is?

Well it is on Tuesday the 29th of January at 3:30 p.m. That is coming up quick, so come and show us how much school spirit you have!

2018 Volleyball Recap

Jack Rodriguez

Last year the volleyball team started off with a bang! The varsity team won 6 of the 8 games and then did great in the tournament. The team consisted of Reid, Nick, Michael, Luke, Caroline, Noah, Jack, Jordan, and Aiden. The team made it to the tournament and lost the first two games. They won the last game against Holbrook, though, and placed 3rd in the tournament.

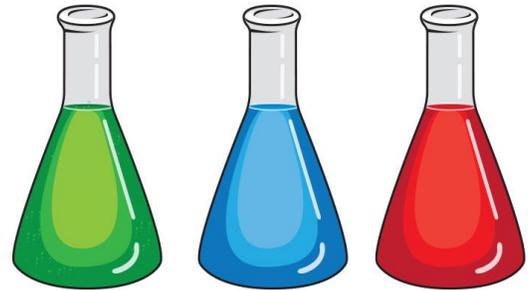

The tournament was at Sequoia on Friday, December 7, 2018. The team proudly took home a third place trophy and a spot on the leaderboard! Mr. Granillo, one of the volleyball coaches said "The kids did well, and all participated. They worked hard and it paid off on the last day of the season."

Science Fair Preview

Jordan Tamondong

Guess what is coming up? The Science Fair!!! The kindergarten through 4th grade classes are doing their projects as a class and the 3rd grade class has a great idea! Their experiment is how different things taste when your mouth is open and when your mouth is closed. I am excited to see how their project and all the other grade's projects will turn out.

Teacher Spotlight

Josh Rodriguez

Ms. Desmond is a very skilled teacher and loves teaching kids. She has been here for a long time and is a great teacher. She loves her kids and takes great care of them. Ms. Desmond stated, "my favorite thing about teaching kindergarten is teaching about Jesus."

The Funnest Things to Do in the Snow

Jaden Tanner

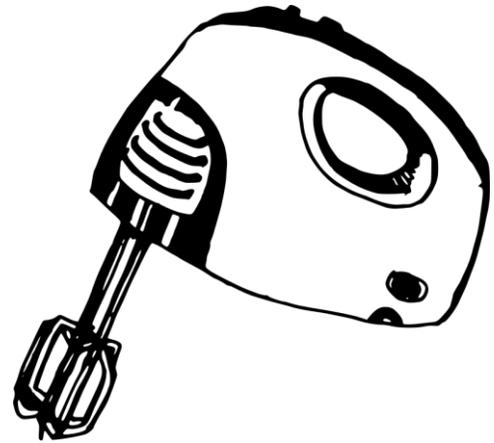

One thing that we've gotten a lot of lately is snow! Lots and lots of snow! I know this because I hear about it all the time. See, my mom gets mad when she can't get out of the driveway when there's too much snow. I have met a lot of people who seem to like the snow a lot better than my mom does.

Here's what a couple of people said they like doing when it snows, sledding, making a snowman, and snow angels. Some were crazy like making sculptures of Pugs!

New Year's Resolutions

Luke Brewer

What did you do for New Year's resolutions? Well, the fourth-grade class here at Mountain Christian School made some great New Year resolutions! Jett wants to read the Bible more often. Bodie wants to exercise more to get stronger. Keevan wants to be kinder to animals and donate more food to the local pounds. Noelle wants to pray more often. If you haven't made a new year's resolution you should consider it for this year.

Christmas Cookies (aka 7-layer cookies)

Nick Shurter

These are some easy and yummy cookies that we have had in our family for a long time.

First, you melt one stick of butter in a nine by thirteen pan and add the following in order:

- 1 large cup of graham cracker crumbs.
- 1 package of butterscotch chips
- 1 package chocolate chips
- 1 can Eagle Bran milk
- 1 ½ cups of chopped nuts
- 1 cup of coconut (which is optional, we normally don't add coconut)

Bake at 350° for 30 minutes.

These are good cookies that are quick and cheap!

Stick Men

Matthew Foley
