Taco Salad Dinner

Nick Shurter

The Taco Salad Dinner is almost here! You should have received tickets over Spring Break and hopefully you sold lots. The Taco Salad Dinner in case you didn't know is a really fun night that is founding the eighth grade class for their Washington

D.C. trip! If you come you can enjoy a nice night with no cooking, great food, and great dessert. Plus it's really cheap that's always a good thing: great food and even better pricing. Oh and if you are thinking why would I waste my time selling tickets there is a prize for the most sold! One of our eighth graders named Jesse Freeman says the dessert is really good business for the dentist!

Spring Break Activities

Jack Rodriguez

Spring Break just ended and many students did some really interesting activities while they were away. Luke went to New Mexico and played HORSE with ninja stars and targets. Abdi went to an amusement park and rode many rides. Divinity and Stephen went to Sunsplash and had fun in the sun. Mia went snowboarding. Josh and Jack tied strings and sticks to drones and had battles with them. Spring Break is the perfect opportunity to have fun away from school or to spend time with family.

Basketball Tournament

Luke Brewer

On Friday March 8, 2019 8:15am the Varsity basket ball team left to Tonto basin to play the championship. We were undefeated so the other teams know that we were not a push over. The results were outstanding The MCS varsity team won. The first game was against the St. Anthony's team 18 to 6. Then we played Tonto basin 32 to 12 and we won. It was a great year and we worked hard.

League Champions!

Start of Soccer Season!

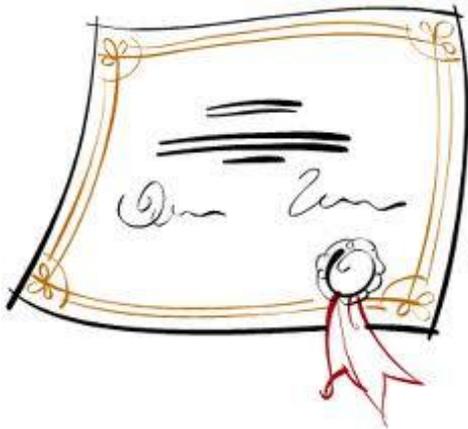

Michael Johnson

Hope you are ready for soccer! Tryouts for the Mountain Christian School soccer team will be starting on the February 18th There are 8 teams in our league that will be playing this year. So be prepared to bring cleats, long socks, and a practice uniform. All games will be on Tuesdays and Thursdays at 3:30 after school. There can be 12 to 13 players on the team, so don't be afraid to try out!

Third quarter Finals

Jesse Freeman

Everybody was excited for the third quarter finals, well I guess excited isn't the word for the finals it's more like utterly terrified and stressed out. Studying for two hours every night, because every single Junior High student did that. That's probably why we were so stressed out. When we had at least one review and test every day that week, we had a lot on our plate. Oh, and let's not forget the basketball players. Practice every day that week with the championship on Friday March 6th. That was one of the hardest weeks of the year.

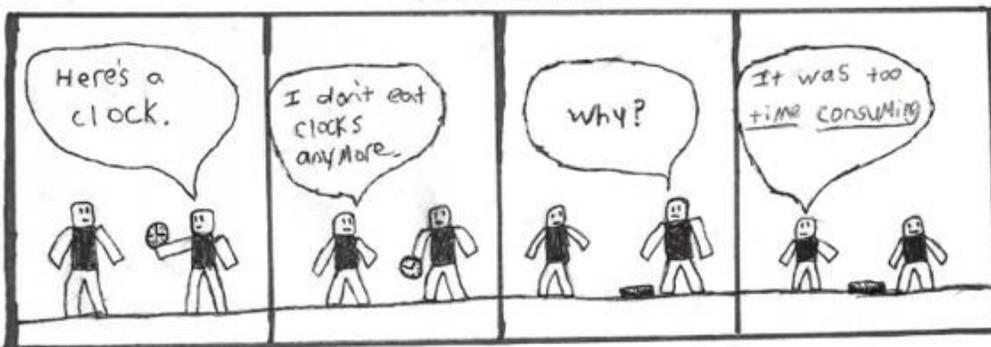

Honor Roll and Principal's List

Jaden Tanner

It's the end of the third quarter, so that means Honor Roll and Principal's list. Now let's talk about the requirements to be on them. Honor Roll requires you have a 3.5 GPA. In simple terms that means more A's than B's. Principal's list requires a 4.0 GPA. In simple terms that means all A's. Now I'll tell you how the office figures out who is on them. They make the list of report cards that they get from teachers. An added bonus to getting Honor Roll and Principal's List, besides the candy, is to get your name and picture in the Show Low newspaper. Work hard in the fourth quarter to get Honor Roll or Principal's List!

Stick Men

Teacher Spotlight

Josh Rodriguez

Mrs. Mc Grew has been here for 9 years and you will never guess how many years she has been teaching in general! A whopping 25 years!

Woo wee! She absolutely loves teaching because she gets to teach about Jesus and she loves when kids find joy in learning. Both her parents were teachers and inspired her in becoming a teacher. Mrs. McGrew also has 3 kids that all went here to this school. So maybe you can be a teacher at a Christian school!

MCS Science fair

Abdi Monahan

Do you want to know about some science fair projects from MCS? Well Reid Granillo's science fair project caught my attention! He did what color absorbs light the best. He thought that red would, and he was correct. Red absorbed 65 degrees inside and 35 degrees outside. The purpose of this project is to see which color is best to have on a car. I hope you had a chance to come to the science fair and see for yourself some of our students' other great projects.

Weekly Riddle!

Luke Brewer

What is hard to find but easy to lose, worth more than gold but costs less than a penny?

If you think you know, ask Luke when you see him at school!
